Re: 2008 National Student Steel Bridge Competition

Dear 2008 NSSBC Sponsor,

On behalf of the University of Florida ASCE Student Chapter and the University of Florida Department of Civil and Coastal Engineering, I would like to thank you for your financial sponsorship and support of the 2008 National Student Steel Bridge Competition (NSSBC).

To the credit of all the UF ASCE student members that spent countless hours planning and executing the competition, the competition ran very smoothly and efficiently. It was the opinion of the attendees and the sponsoring organization (AISC) that this was the best run NSSBC ever held. To top things off, the UF Steel Bridge Team finished 2nd overall! The UF ASCE Student Chapter showed that Gator Engineers are some of the best engineers in the country!

Your support gave us the resources we needed to set a new, higher standard for future NSSBC's. Without your support, we could not have hosted this prestigious event. The UF ASCE Student Chapter and I look forward to working with you again in the future. Thank you for your continued support!

Sincerely,

Jimmy Falls
NSSBC Director
